Our work starts with you.
Dear Tulanians,

Our work in the Division of Student Affairs starts with you, and our main goal is to help students reach their full potential. It is grounded in core values of leading lives of integrity, encouraging creativity and innovation, educating the whole person, committing to healthy living and building a stronger community.

During the 2016-2017 academic year, we launched a three-year Division Strategic Plan that puts emphasis on the following areas:

- enhancing the learning environment for all Tulane students
- creating a more diverse and inclusive Tulane
- communicating our shared identity and impact
- promoting the health and wellness of the Tulane community
- maximizing our capacity to meet student needs

Our team has been hard at work bringing these strategic directions to life this past year, and we look forward to sharing our accomplishments with you.

On behalf of the entire Division of Student Affairs, I want to thank you for your support and collaboration. Students are at the core of all that we do, and we could not achieve our goals without your help. Together, we can lay the groundwork for a better Tulane.

Sincerely,

J. Davidson “Dusty” Porter

“Tulane After Dark is an awesome series of late-night events built just for Tulane students. While we hope our students find a unique and deep connection with New Orleans, this programming allows them to connect with each other on campus while having fun, free things to do with their weekends. It’s been very fulfilling to create unique and captivating events for our students.”

"Through The O, I found my Tulane family. I’ve met people and built relationships that will last a lifetime. It has also provided me with a comfortable on-campus space, and allowed me to grow and develop as a leader. My time at Tulane has prepared me for the future by giving me the experience and expertise needed to be successful in any field."
Here’s how the Division of Student Affairs will work for you in 2017-2018:

**New Member Education Series in Fraternity & Sorority Programs**
To ensure students who join fraternities and sororities understand the obligations of membership, the department will host programming with topics focused on issues of sexual violence, drug use, hazing and diversity.

**New Student and Leadership Programs**
Beginning in 2018, we will implement a more efficient model for New Student Orientation, moving it to the week before classes. The updated timeline will support the advising and registration process for students throughout the summer.

**Goldman Center for Student Accessibility**
Our team will create an online training module to promote faculty ADA compliance around campus.

**Housing and Residence Life**
The number of Residential Learning Communities will be expanding from four to eight in the next year.
